

Geoscience Information Society

E-Resources Forum

Monday, October 23, 2006 9-12
Marriott Grand Ballroom C

The Geoscience Information Society holds the Electronic Resources forum every year to keep the membership informed about current trends and issues concerning digital data and information resources. The E-Resources Forum will be held Monday, October 23, 2006 from 9:00 AM until Noon in the Marriott Grand Ballroom C. This year's speakers include:

- Sharon Tahirkheli, Director, Information Systems (GeoRef)
 - [Glossary of Geology](#)
 - [GeoRef](#)
- Ronald Hart, [AAPG Geosciences](#)
- Angela Lee, ESRI Education Programs
- David Soller, Chief, National Geologic Map Database Project, U.S. Geological Survey

After hearing reports from the above speakers, we will conclude with some discussion of our local digital initiatives, such as digitization projects and Institutional Repositories.
